FULL-STACK DEVELOPER & CONSULTANT

Over the last 10 years I have worked as a full-stack freelance developer, taking part in all kinds of projects and building solutions from start to finish. My experience combines software engineering, product design and marketing.

EXPERIENCE

Freelance

2015 – present

Full-Stack Developer & Consultant

Development of native and web applications, internal CRMs and billing solutions for companies across various sectors.

Bydemes Group SL

2010 – 2014

Art Director

Definition and supervision of the visual aesthetic of campaigns and projects. Translating concepts into consistent images, designs and styles. Management of print, web catalogues and digital marketing via newsletters.

Iptecno Seguridad SL

Sep 2009 – Jan 2010

Graphic Designer

Creation and management of print catalogues, web catalogues, newsletters and marketing campaigns.

Kinetical

2008 – 2009

UI / UX Designer

Design of user interfaces for sales and marketing software.

EDUCATION

Bachelor's Degree in Multimedia

2011 – 2016

UOC

Creation, design and development of interactive and audiovisual digital content, combining creativity with technology.

Master's Degree in Web Development

2009 – 2011

CIPSA Academy

Full-stack web application development: visual interface, server-side logic, databases and APIs.

CFGS Graphic Arts

2006 – 2008

Escola Groc

Creation of visual solutions for commercial communication: campaigns, logos, posters and materials for print and digital media.

CFGS Graphic Arts

2004 – 2006

INS Escola del Treball

Design, management and supervision of graphic projects from concept to final print. Editorial products, packaging and advertising materials.
